Subject Index

Acetylcholinesterase

cerebrospinal fluid cholinesterases in aging and in dementia of the Alzheimer type (Atack et al), 161

Acoustic nerve disease:

new technique for interpreting the BAER in cochlear disease (Tomasulo et al), 204

Acquired immunodeficiency syndrome

AIDS and its dementia as a neuropeptide disorder: role of VIP receptor blockade by human immunodeficiency virus envelope (Pert et al), S71

AIDS and neurological disorders: an overview (Elder and Sever), S4

AIDS dementia complex: some current questions (Price et al), S27

animal models of AIDS (Gravell), S213

antibody to human and simian retrovirus, HTLV-I, HTLV-II, HIV, STLV-III, and SRV-I not increased in patients with multiple sclerosis (Madden et al), S171

cerebrospinal fluid abnormalities in homosexual men with and without neuropsychiatric findings (McArthur et al), S34

clinical and electrophysiological studies of human immunodeficiency virus-seropositive men without AIDS (Smith et al), 295

long-term administration of 3'-azido-2',3'-dideoxythymidine to patients with AIDS-related neurological disease (Yarchoan et al), S82

multifocal cytomegalovirus encephalitis in AIDS (Masdeu et al), 97

natural variants of human immunodeficiency virus from patients with neurological disorders do not kill T4⁺ cells (Anand), S66

neuromuscular diseases associated with human immunodeficiency virus infection (Dalakas and Pezeshkpour), S38

neuropsychiatric consequences of AIDS (Rubinow et al), S24

opportunistic central nervous system pathology in patients with AIDS (Levy et al), S7

peripheral neuropathy in the acquired immunodeficiency syndrome (de la Monte et al), 485

primary central nervous system lymphomas in patients with AIDS (Rosenblum et al), S13

research relative to AIDS (McKhann), S208

treatment of the neuromuscular complications of human immunodeficiency virus infection (Cornblath), S88

Acquired immunodeficiency syndrome, drug therapy
therapy for neurological involvement in AIDS (Brady and O'Neill), S211

Adenoids

stroke associated with obstructive sleep apnea in a child with sickle cell anemia (Robertson et al), 000

Adenovirus infections

fatal adenovirus meningoencephalitis in a bone marrow transplant patient (Davis et al), 385

Adenovirus infections, human

adenovirus-associated meningoencephalitis in a healthy adult (Landry and Hsiung), LETTER, 627

AIDS. *See* Acquired immunodeficiency syndrome

AIDS-related complex

long-term administration of 3'-azido-2',3'-dideoxythymidine to patients with AIDS-related neurological disease (Yarchoan et al), S82

neurological complications of human immunodeficiency virus infection in patients with lymphadenopathy syndrome (Janssen et al), 49

neurological symptoms and neuropsychological abnormalities in lymphadenopathy syndrome (Janssen et al), S17

neuromuscular diseases associated with human immunodeficiency virus infection (Dalakas and Pezeshkpour), S38

peripheral neuropathy in the acquired immunodeficiency syndrome (de la Monte et al), 485

treatment of the neuromuscular complications of human immunodeficiency virus infection (Cornblath), S88

Air

trigeminal evoked potentials following brief air puff: enhanced signal-to-noise ratio (Hashimoto), 332

Alcohol amnesic disorder

thalamic hemorrhages in Wernicke-Korsakoff syndrome demonstrated by computerized tomography (Roche et al), LETTER, 312

Alzheimer's disease

Alz-50 antibody recognizes Alzheimer-related neuronal changes (Hyman et al), 371

aphasia in senile dementia of the Alzheimer type (Faber-Langendoen et al), 365

cerebrospinal fluid cholinesterases in aging and in dementia of the Alzheimer type (Atack et al), 161

changes in benzodiazepine receptors in Alzheimer-type dementia (Shimohama et al), 404

clinical, pathological, and neurochemical changes in dementia: a subgroup with preserved mental status and numerous neocortical plaques (Katzman et al), 138

cortical somatostatin, neuropeptide Y, and NADPH diaphorase neurons: normal anatomy and alterations in Alzheimer's disease (Kowall and Beal), 105

differential cognitive impairment in Alzheimer's disease and Huntington's disease (Brandt et al), 555

influence of neuronal location on antigenic properties of neurofibrillary tangles (Tabaton et al), 604

intraneuronal and extracellular neurofibrillary tangles exhibit mutually exclusive cytoskeletal antigens (Schmidt et al), 184

mild senile dementia of the Alzheimer type: 2. Longitudinal assessment (Berg et al), 477

neuronal RNA in relation to Alz-50 immunoreactivity in Alzheimer's disease (Doebler et al), 20

possible neurotransmitter basis of behavioral changes in Alzheimer's disease (Palmer et al), 616

stimulation of lipolytic enzymes in Alzheimer's disease (Farooqui et al), 306

Alzheimer's disease, familial and genetic

familial Alzheimer's disease in American descendants of the Volga Germans: probable genetic founder effect (Bird et al), 25

inheritance of Alzheimer's disease: a new interpretation (Fitch et al), 14

Amobarbital, adverse effects

brain injury, handedness, and speech lateralization in a series of amobarbital studies (Woods et al), S10

Supplement, pp S1-S217; January issue, pp 1-104; February issue, pp 105-210; March issue, pp 211-316; April issue, pp 317-428; May issue, pp 429-532; June issue, pp 533-646.

- Amphetamine**
evidence that amphetamine with physical therapy promotes recovery of motor function in stroke patients (Crisostomo et al), 94
- Amyotrophic lateral sclerosis**
magnetic resonance imaging in amyotrophic lateral sclerosis (Goodin et al), 418
- Anemia, sickle cell**
brain infarction in sickle cell anemia: magnetic resonance imaging correlates (Pavakis et al), 125
stroke associated with obstructive sleep apnea in a child with sickle cell anemia (Robertson et al), 614
- Angiokeratoma corporis diffusum**
nervous system involvement in Fabry's disease: clinicopathological and biochemical correlation (Kaye et al), 505
- Anosmia**
more on X-linked ichthyosis, steroid sulfatase deficiency, and hypogonadism and anosmia (Andria et al), LETTER, 103
- Anoxemia**
stroke associated with obstructive sleep apnea in a child with sickle cell anemia (Robertson et al), 614
- Antibodies**
antineuronal autoantibody in paraneoplastic opsoclonus (Budde-Steffen et al), 528
intrathecal synthesis of IgG antibodies to HTLV-I supports an etiological role for HTLV-I in tropical spastic paraparesis (Ceroni et al), S188
serum antibodies to gangliosides in Guillain-Barré syndrome (Ilyas et al), 440
- Antibodies, monoclonal**
Alz-50 antibody recognizes Alzheimer-related neuronal changes (Hyman et al), 371
monoclonal antibody analysis of mononuclear cells in myopathies. IV: cell-mediated cytotoxicity and muscle fiber necrosis (Arahata and Engel), 168
monoclonal antibody analysis of mononuclear cells in myopathies. V: identification and quantitation of T8⁺ cytotoxic and T8⁺ suppressor cells (Arahata and Engel), 493
motor neuron syndrome and monoclonal IgM with antibody activity against gangliosides GM1 and GD1b (Nardelli et al), 524
- Anticholinergic agents.** *See* Parasympatholytics
- Anticoagulants**
complications of long-term anticoagulation (Petty et al), 570
- Antiviral agents**
treatment of the neuromuscular complications of human immunodeficiency virus infection (Cornblath), S88
- Aphasia**
aphasia in senile dementia of the Alzheimer type (Faber-Langendoen et al), 365
effect of anterior temporal lobectomy on language function: a controlled study (Hermann and Wyler), S85
- Arthritis**
lentivirus-host interactions: lessons from visna and caprine arthritis-encephalitis viruses (Narayan et al), S95
- Asphyxia neonatorum**
selective brainstem injury in an asphyxiated newborn (Roland et al), 89
- Ataxia**
metabolic anatomy of paraneoplastic cerebellar degeneration (Anderson et al), 533
role of HTLV-I in tropical spastic paraparesis in Jamaica (Rodgers-Johnson et al), S121
- Autoimmune diseases**
AIDS and neurological disorders: an overview (Elder and Sever), S4
antineuronal autoantibody in paraneoplastic opsoclonus (Budde-Steffen et al), 528
- Autonomic nervous system diseases**
systemic sclerosis: another disease with autonomic dysfunction (Gledhill and Dessein), LETTER, 421
- Axons**
axonal transport in neurological disease (Griffin and Watson), NEUROLOGICAL PROGRESS, 3
- Azathioprine**
cyclosporine versus azathioprine in the long-term treatment of multiple sclerosis—results of the German multicenter study (Kappos et al), 56
- Azido-dideoxythymidine.** *See* AZT
- AZT**
long-term administration of 3'-azido-2',3'-dideoxythymidine to patients with AIDS-related neurological disease (Yarchoan et al), S82
therapy for neurological involvement in AIDS (Brady and O'Neill), S211
treatment of human immunodeficiency virus-related polyneuropathy with 3'-azido-2',3'-dideoxythymidine (Dalakas et al), S92
- Balance**
thalamic astasia: inability to stand after unilateral thalamic lesions (Masdeu and Gorelick), 596
- Basal nucleus of Meynert.** *See* Substantia innominata
- Benzodiazepines**
changes in benzodiazepine receptors in Alzheimer-type dementia (Shimohama et al), 404
- β_2 microglobulin**
expression of immunoreactive major histocompatibility complex products in human skeletal muscles (Karpati et al), 64
- Bethanechol compounds**
bethanechol for anticholinergic side effects (Boyson), LETTER, 422
- Bone marrow, transplantation**
fatal adenovirus meningoencephalitis in a bone marrow transplant patient (Davis et al), 385
- Brain, pathology**
AIDS and its dementia as a neuropeptide disorder: role of VIP receptor blockade by human immunodeficiency virus envelope (Pert et al), S71
distinct biological and serological properties of human immunodeficiency viruses from the brain (Cheng-Mayer and Levy), S58
infantile Gaucher's disease: a case with neuronal storage (Grafe et al), 300
- Brain chemistry**
changes in benzodiazepine receptors in Alzheimer-type dementia (Shimohama et al), 404
metabolic advantage of neuronal coupling of regional brain activity and blood flow (Woods), LETTER, 629
metabolic anatomy of paraneoplastic cerebellar degeneration (Anderson et al), 533
somatostatin and neuropeptide Y concentrations in pathologically graded cases of Huntington's disease (Beal et al), 562
speech disorders in olivopontocerebellar atrophy correlate with positron emission tomography findings (Kluin et al), 547

Brain diseases

- acute fulminating fatal leukoencephalopathy as the only manifestation of human immunodeficiency virus infection (Jones, Jr et al), 519
- AIDS dementia complex: some current questions (Price et al), S27
- brain injury, handedness, and speech lateralization in a series of amobarbital studies (Woods et al), 510
- immunopathogenesis of human immunodeficiency virus infection in the central nervous system (Gendelman et al), S78
- natural variants of human immunodeficiency virus from patients with neurological disorders do not kill T4⁺ cells (Anand), S66
- nervous system involvement in Fabry's disease: clinicopathological and biochemical correlation (Kaye et al), 505
- neurological and neuropathological features of human immunodeficiency virus infection in children (Epstein et al), S19
- neurological symptoms and neuropsychological abnormalities in lymphadenopathy syndrome (Janssen et al), S17
- neuropathological changes in an asymptomatic HIV seropositive man (Lenhardt et al), LETTER, 209
- neurotropic retroviruses of wild mice and macaques (Gardner), S201
- role of mononuclear phagocytes and accessory cells in human immunodeficiency virus type I infection of the brain (Popovic et al), S74
- therapy for neurological involvement in AIDS (Brady and O'Neill), S211
- toluene abuse causes diffuse central nervous system white matter changes (Rosenberg et al), 611
- virus in the nervous system (Johnson), S210
- Brain neoplasms
 - primary central nervous system lymphomas in patients with AIDS (Rosenblum et al), S13
 - prospective intellectual testing in children with brain tumors (Duffner et al), 575
 - successful chemotherapy for recurrent malignant oligodendroglioma (Cairncross and Macdonald), 360
- Brainstem
 - new technique for interpreting the BAER in cochlear disease (Tomasulo et al), 204
- Brainstem, injuries
 - selective brainstem injury in an asphyxiated newborn (Roland et al), 89
- Brainstem, pathology
 - cerebellar and brainstem hypometabolism in olivopontocerebellar atrophy detected with positron emission tomography (Gilman et al), 223
- Butyrylcholinesterase
 - cerebrospinal fluid cholinesterases in aging and in dementia of the Alzheimer type (Atack et al), 161
- Calcitonin
 - release of vasoactive peptides in the extracerebral circulation of humans and the cat during activation of the trigeminovascular system (Goadsby et al), 193
- Carboxylic ester hydrolases
 - stimulation of lipolytic enzymes in Alzheimer's disease (Farooqui et al), 306
- Carfentanil
 - mu-opiate receptors measured by positron emission tomography are increased in temporal lobe epilepsy (Frost et al), 231

Carmustine

- successful chemotherapy for recurrent malignant oligodendroglioma (Cairncross and Macdonald), 360
- Carotid artery diseases
 - new model of embolic stroke produced by photochemical injury to the carotid artery in the rat (Futrell et al), 251
- Catalase
 - suppression of experimental autoimmune neuritis by the oxygen radical scavengers superoxide dismutase and catalase (Hartung et al), 453
- Central nervous system diseases
 - opportunistic central nervous system pathology in patients with AIDS (Levy et al), S7
- Ceramide trihexosides. *See* Trihexosylceramides
- Cerebellar diseases
 - alternating skew on lateral gaze (bilateral abducting hyperopia) (Moster et al), 190
 - cerebellar and brainstem hypometabolism in olivopontocerebellar atrophy detected with positron emission tomography (Gilman et al), 223
 - metabolic anatomy of paraneoplastic cerebellar degeneration (Anderson et al), S33
- Cerebral cortex
 - influence of neuronal location on antigenic properties of neurofibrillary tangles (Tabaton et al), 604
- Cerebral cortex, blood supply
 - increases in both cerebral glucose utilization and blood flow during execution of a somatosensory task (Ginsberg et al), 152
- Cerebral cortex, metabolism
 - possible neurotransmitter basis of behavioral changes in Alzheimer's disease (Palmer et al), 616
- Cerebral cortex, pathology
 - acquired ocular motor apraxia due to bilateral frontoparietal infarcts (Pierrrot-Deseilligny et al), 199
 - clinical, pathological, and neurochemical changes in dementia: a subgroup with preserved mental status and numerous neocortical plaques (Katzman et al), 138
 - cortical somatostatin, neuropeptide Y, and NADPH diaphorase neurons: normal anatomy and alterations in Alzheimer's disease (Kowall and Beal), 105
 - focal cortical myoclonus and rolandic cortical dysplasia: clarification by magnetic resonance imaging (Kuzniecky et al), 317
 - two distinct deficits of visual tracking caused by unilateral lesions of cerebral cortex in humans (Thurston et al), 266
- Cerebral infarction
 - acquired ocular motor apraxia due to bilateral frontoparietal infarcts (Pierrrot-Deseilligny et al), 199
 - brain infarction in sickle cell anemia: magnetic resonance imaging correlates (Pavakis et al), 125
 - evidence that amphetamine with physical therapy promotes recovery of motor function in stroke patients (Crisostomo et al), 94
 - neurofibrillary tangle formation in the nucleus basalis of Meynert ipsilateral to a massive cerebral infarct (Kato et al), 620
 - new model of embolic stroke produced by photochemical injury to the carotid artery in the rat (Futrell et al), 251
 - prolonged deterioration of ischemic brain energy metabolism and acidosis associated with hyperglycemia: human cerebral infarction studied by serial ³¹P NMR spectroscopy (Levine et al), 416
 - safety and angiographic efficacy of tissue plasminogen activator in a cerebral embolization model (Phillips et al), 391

- stroke associated with obstructive sleep apnea in a child with sickle cell anemia (Robertson et al), 614
- subcortical neglect: neuropsychological, SPECT, and neuropathological correlations with anterior choroidal artery territory infarction (Bogousslavsky et al), 448
- Cerebral ischemia**
prolonged deterioration of ischemic brain energy metabolism and acidosis associated with hyperglycemia: human cerebral infarction studied by serial ^{31}P NMR spectroscopy (Levine et al), 416
- Cerebral ischemia, transient**
complications of long-term anticoagulation (Petty et al), 570
- Cerebrospinal fluid**
cerebrospinal fluid abnormalities in homosexual men with and without neuropsychiatric findings (McArthur et al), S34
cerebrospinal fluid antibodies to myelin basic protein in acute idiopathic optic neuritis (Warren et al), 297
cerebrospinal fluid IgG in childhood: the establishment of reference values (Rust, Jr et al), 406
cerebrospinal fluid pleocytosis following simple, complex partial, and generalized tonic-clonic seizures (Devinsky et al), 402
Lesch-Nyhan syndrome: a study of motor behavior and cerebrospinal fluid neurotransmitters (Jankovic et al), 466
- Cerebrospinal fluid proteins**
cerebrospinal fluid cholinesterases in aging and in dementia of the Alzheimer type (Atack et al), 161
measurement of immunoreactive myelin basic protein peptide (45-89) in cerebrospinal fluid (Gupta et al), 274
- Cerebrovascular circulation**
control of cerebral blood flow (Boyson), LETTER, 421; reply (Lou), LETTER, 421
- Cervical vertebrae**
atlantoaxial subluxation in psoriatic arthropathy (Kaplan et al), 522
- Child**
neurological and neuropathological features of human immunodeficiency virus infection in children (Epstein et al), S19
- Choroidal artery, anterior**
subcortical neglect: neuropsychological, SPECT, and neuropathological correlations with anterior choroidal artery territory infarction (Bogousslavsky et al), 448
- Cisplatin**
prospective nerve conduction studies in cisplatin therapy (Riggs et al), 92
- Cocaine**
cocaine and Tourette's syndrome (Factor et al), LETTER, 423
- Cochlear nerve**
new technique for interpreting the BAER in cochlear disease (Tomasulo et al), 204
- Cognition disorders**
differential cognitive impairment in Alzheimer's disease and Huntington's disease (Brandt et al), 555
neuropsychiatric consequences of AIDS (Rubinow et al), S24
positron emission tomographic scan investigations of Huntington's disease: cerebral metabolic correlates of cognitive function (Berent et al), 541
- Colombia**
epidemiology of tropical spastic paraparesis in Colombia and associated HTLV-I infection (Arango et al), S161
- tropical spastic paraparesis in Colombia (Zaninovic et al), S127
- Coma**
eye movements, EEG, and fatal anoxic coma (Stark), LETTER, 101; eye movements, EEG, and fatal anoxic coma (Brod et al), LETTER, 101; reply (Simon and Aminoff), LETTER, 101
- Complement activation**
absence of complement activation in demyelinating polyradiculoneuropathies (Sanders et al), LETTER, 102
- Corpus callosum**
search for sex differences in the corpus callosum (Byne), LETTER, 313
- Corpus striatum**
striatal calcium channel antagonist receptors in Huntington's disease and Parkinson's disease (Watson et al), 303
- Cortisol.** See Hydrocortisone
- Cranial nerve neoplasms**
treatment of chiasmatic/hypothalamic gliomas of childhood with chemotherapy: an update (Packer et al), 79
- Cyclosporins**
cyclosporine versus azathioprine in the long-term treatment of multiple sclerosis—results of the German multicenter study (Kappos et al), 56
- Cytomegaloviruses**
multifocal cytomegalovirus encephalitis in AIDS (Masdeu et al), 97
- Dactinomycin**
treatment of chiasmatic/hypothalamic gliomas of childhood with chemotherapy: an update (Packer et al), 79
- Dementia**
AIDS and its dementia as a neuropeptide disorder: role of VIP receptor blockade by human immunodeficiency virus envelope (Pert et al), S71
AIDS dementia complex: some current questions (Price et al), S27
long-term administration of 3'-azido-2',3'-dideoxythymidine to patients with AIDS-related neurological disease (Yarchoan et al), S82
metabolic anatomy of paraneoplastic cerebellar degeneration (Anderson et al), S33
natural variants of human immunodeficiency virus from patients with neurological disorders do not kill T4⁺ cells (Anand), S66
preliminary molecular characterization of a human immunodeficiency virus (HIV-1) associated with neuropathology (Anand et al), S62
- Demyelinating diseases**
pathological and immunological observations on tropical spastic paraparesis in patients from Jamaica (Piccardo et al), S156
peripheral neuropathies associated with human immunodeficiency virus infection (Parry), S49
treatment of the neuromuscular complications of human immunodeficiency virus infection (Cornblath), S88
tumor necrosis factor mediates myelin and oligodendrocyte damage in vitro (Selma and Raine), 339
- Diencephalon, pathology**
sudden diencephalic events (Morris), LETTER, 208; reply (Bullard), LETTER, 208
- Disease models, animal**
animal models of AIDS (Gravell), S213
dysmyelination in transgenic mice containing JC virus early region (Trapp et al), 38
new model of embolic stroke produced by photochemical injury to the carotid artery in the rat (Futrell et al), 251

- Disease models, animal (*continued*)
 safety and angiographic efficacy of tissue plasminogen activator in a cerebral embolization model (Phillips et al), 391
- Down's syndrome
 symptomatic atlantoaxial dislocation in Down's syndrome (Braakhekke), LETTER, 421
- Dyskinesia, drug-induced
 is the thought disorder with oculogyric crisis a feature of tardive akathisia or tardive dysphrenia? (Fahn), LETTER, 313; reply (Leigh et al), LETTER, 314
- Dystonia
 dystonia in Parkinson's disease: clinical and pharmacological features (Poewe et al), 73
- Electroencephalography
 eye movements, EEG, and fatal anoxic coma (Stark), LETTER, 101; eye movements, EEG, and fatal anoxic coma (Brod et al), LETTER, 101; reply (Simon and Aminoff), LETTER, 101
 metabolic correlates of diffuse EEG spike-and-wave and absence seizures (Engel, Jr et al), LETTER, 207; reply (Ochs et al), LETTER, 207
- Embolism
 clinical and neuropathological findings in systemic lupus erythematosus: the role of vasculitis, heart emboli, and thrombotic thrombocytopenic purpura (Devinsky et al), 380
 new model of embolic stroke produced by photochemical injury to the carotid artery in the rat (Futrell et al), 251
- Encephalitis
 comparison of simian immunodeficiency virus and human immunodeficiency virus encephalitides in the immature host (Sharer et al), S108
 multifocal cytomegalovirus encephalitis in AIDS (Masdeu et al), 97
 review of central nervous system pathology in human immunodeficiency virus infection (Petito), S54

role of mononuclear phagocytes and accessory cells in human immunodeficiency virus type I infection of the brain (Popovic et al), S74

Motor activity

increases in both cerebral glucose utilization and blood flow during execution of a somatosensory task (Ginsberg et al), 152

Lesch-Nyhan syndrome: a study of motor behavior and cerebrospinal fluid neurotransmitters (Jankovic et al), 466

Motor neurons

motor conduction studies in Guillain-Barré syndrome: description and prognostic value (Cornblath et al), 354

motor neuron syndrome and monoclonal IgM with antibody activity against gangliosides GM1 and GD1b (Nardelli et al), 524

motor unit synchronization in physiologic, enhanced physiologic, and voluntary tremor in man (Logigian et al), 242

Multiple sclerosis

antibody to human and simian retrovirus, HTLV-I, HTLV-II, HIV, STLV-III, and SRV-I not increased in patients with multiple sclerosis (Madden et al), S171

cerebrospinal fluid antibodies to myelin basic protein in acute idiopathic optic neuritis (Warren et al), 297

cortisol induction by poly ICLC: implications for clinical trials of interferon (Bever et al), 196

cyclosporine versus azathioprine in the long-term treatment of multiple sclerosis—results of the German multicenter study (Kappos et al), 56

HTLV-I and chronic nervous diseases: present status and a look into the future (Koprowski and DeFreitas), S166

immunotherapy of multiple sclerosis (Weiner and Hafler), NEUROLOGICAL PROGRESS, 211

tumor necrosis factor mediates myelin and oligodendrocyte damage in vitro (Selmaj and Raine), 339

Muscles

monoclonal antibody analysis of mononuclear cells in myopathies. IV: cell-mediated cytotoxicity and muscle fiber necrosis (Arahata and Engel), 168

Muscle spasticity

quantitative relations between hypertonia and stretch reflex threshold in spastic hemiparesis (Powers et al), 115

Muscular diseases

deficiency of subunits of complex I and mitochondrial encephalomyopathy (Ichiki et al), 287

expression of immunoreactive major histocompatibility complex products in human skeletal muscles (Karpati et al), 64

monoclonal antibody analysis of mononuclear cells in myopathies. IV: cell-mediated cytotoxicity and muscle fiber necrosis (Arahata and Engel), 168

monoclonal antibody analysis of mononuclear cells in myopathies. V: identification and quantitation of T8⁺ cytotoxic and T8⁺ suppressor cells (Arahata and Engel), 493

Muscular diseases, familial and genetic

X-linked myopathy with excessive autophagy: a new hereditary muscle disease (Kalimo et al), 258

Muscular dystrophy

monoclonal antibody analysis of mononuclear cells in myopathies. IV: cell-mediated cytotoxicity and muscle fiber necrosis (Arahata and Engel), 168

Myelin basic proteins. See Encephalitogenic basic proteins

Myelin sheath

central pontine myelinolysis after rapid correction of hyponatremia: a magnetic resonance imaging study (Bruner et al), 389

peripheral neuropathy in myotonic dystrophy: a nerve biopsy study (Cros et al), 470

suppression of experimental autoimmune neuritis by the oxygen radical scavengers superoxide dismutase and catalase (Hartung et al), 453

tumor necrosis factor mediates myelin and oligodendrocyte damage in vitro (Selmaj and Raine), 339

Myelography

seizures following myelography with iopamidol (Levey et al), 397

Myositis

monoclonal antibody analysis of mononuclear cells in myopathies. IV: cell-mediated cytotoxicity and muscle fiber necrosis (Arahata and Engel), 168

seroprevalence of antibodies to HTLV-I in patients with chronic neurological disorders other than tropical spastic paraparesis (Mora et al), S192

Myotonia atrophica

hearing loss in myotonic dystrophy (Wright et al), 202

peripheral neuropathy in myotonic dystrophy: a nerve biopsy study (Cros et al), 470

NADH diaphorase. See Lipoamide dehydrogenase

NADH, NADPH oxidoreductases

deficiency of subunits of complex I and mitochondrial encephalomyopathy (Ichiki et al), 287

Necrotizing arteritis

peripheral neuropathy of necrotizing arteritis: a clinicopathological study (Said et al), 461

Neoplasms

antineuronal autoantibody in paraneoplastic opsoclonus (Budde-Steffen et al), 528

Nerve compression syndromes

axonal transport in neurological disease (Griffin and Watson), NEUROLOGICAL PROGRESS, 3

Nerve conduction

motor conduction studies in Guillain-Barré syndrome: description and prognostic value (Cornblath et al), 354

Nerve fibers

axonal transport in neurological disease (Griffin and Watson), NEUROLOGICAL PROGRESS, 3

Neural conduction

prospective nerve conduction studies in cisplatin therapy (Riggs et al), 92

role of macrophages in experimental autoimmune neuritis induced by a P₂-specific T-cell line (Heininger et al), 326

Neuritis, experimental autoimmune

suppression of experimental autoimmune neuritis by the oxygen radical scavengers superoxide dismutase and catalase (Hartung et al), 453

Neurofibrils

Alz-50 antibody recognizes Alzheimer-related neuronal changes (Hyman et al), 371

cortical somatostatin, neuropeptide Y, and NADPH diaphorase neurons: normal anatomy and alterations in Alzheimer's disease (Kowall and Beal), 105

influence of neuronal location on antigenic properties of neurofibrillary tangles (Tabaton et al), 604

intraneuronal and extracellular neurofibrillary tangles exhibit mutually exclusive cytoskeletal antigens (Schmidt et al), 184

neurofibrillary tangle formation in the nucleus basalis of Meynert ipsilateral to a massive cerebral infarct (Kato et al), 620

 nervous system involvement in Fabry's disease: clinicopathological and biochemical correlation (Kaye et al), 505
 neurological symptoms and neuropsychological abnormalities in lymphadenopathy syndrome (Janssen et al), S17

Peripheral nerve diseases (*continued*)

- peripheral neuropathies associated with human immunodeficiency virus infection (Parry), S49
- peripheral neuropathy in the acquired immunodeficiency syndrome (de la Monte et al), 485
- peripheral neuropathy of necrotizing arteritis: a clinicopathological study (Said et al), 461
- plasmapheresis alleviates neuropathy accompanying IgM anti-myelin-associated glycoprotein paraproteinemia (Haas and Tatum), 394
- treatment of human immunodeficiency virus-related polyneuropathy with 3'-azido-2',3'-dideoxythymidine (Dalakas et al), S92

Peru

- spastic paraparesis and HTLV-I infection in Peru (Johnson et al), S151

Phagocytes

- role of mononuclear phagocytes and accessory cells in human immunodeficiency virus type I infection of the brain (Popovic et al), S74

Phenytoin

- phenytoin does not block hippocampal long-term potentiation or frequency potentiation (Stringer and Lothman), 281

Phosphates, metabolism

- prolonged deterioration of ischemic brain energy metabolism and acidosis associated with hyperglycemia: human cerebral infarction studied by serial ³¹P NMR spectroscopy (Levine et al), 416

Plasmapheresis

- Guillain-Barré syndrome following typhoid fever (Donoso), LETTER, 627
- motor conduction studies in Guillain-Barré syndrome: description and prognostic value (Cornblath et al), 354
- plasmapheresis alleviates neuropathy accompanying IgM anti-myelin-associated glycoprotein paraproteinemia (Haas and Tatum), 394
- plasmapheresis and Guillain-Barré syndrome: analysis of prognostic factors and the effect of plasmapheresis (McKhann et al), 347

Plasminogen activator, tissue-type

- safety and angiographic efficacy of tissue plasminogen activator in a cerebral embolization model (Phillips et al), 391

Platelet aggregation

- new model of embolic stroke produced by photochemical injury to the carotid artery in the rat (Futrell et al), 251

Polyradiculoneuritis

- absence of complement activation in demyelinating polyradiculoneuropathies (Sanders et al), LETTER, 102
- Guillain-Barré syndrome following typhoid fever (Donoso), LETTER, 627
- motor conduction studies in Guillain-Barré syndrome: description and prognostic value (Cornblath et al), 354
- plasmapheresis and Guillain-Barré syndrome: analysis of prognostic factors and the effect of plasmapheresis (McKhann et al), 347
- serum antibodies to gangliosides in Guillain-Barré syndrome (Ilyas et al), 440

Pons

- influence of neuronal location on antigenic properties of neurofibrillary tangles (Tabaton et al), 604

Pons, pathology

- central pontine myelinolysis after rapid correction of hyponatremia: a magnetic resonance imaging study (Brunner et al), 389

Procarbazine

- successful chemotherapy for recurrent malignant oligodendroglioma (Cairncross and Macdonald), 360

Psoriasis

- atlantoaxial subluxation in psoriatic arthropathy (Kaplan et al), 522

Purpura, thrombotic thrombocytopenic

- clinical and neuropathological findings in systemic lupus erythematosus: the role of vasculitis, heart emboli, and thrombotic thrombocytopenic purpura (Devinsky et al), 380

Receptors, dopamine

- control of cerebral blood flow (Boyson), LETTER, 421; reply (Lou), LETTER, 421

Receptors, endorphin

- mu-opiate receptors measured by positron emission tomography are increased in temporal lobe epilepsy (Frost et al), 231

Receptors, serotonin

- antimigraine drug interactions with serotonin receptor subtypes in human brain (Peroutka), 500

Reflex, stretch

- quantitative relations between hypertonia and stretch reflex threshold in spastic hemiparesis (Powers et al), 115

Reflex, vestibuloocular

- ultralow vestibuloocular reflex time constants (Baloh et al), 32

Retrovirus infections

- neurotropic retroviruses of wild mice and macaques (Gardner), S201
- retrovirus encephalomyelitis (Gajdusek), S207

Rett syndrome

- diagnostic criteria for Rett syndrome (Rett Syndrome Diagnostic Criteria Work Group), 425

RNA

- neuronal RNA in relation to Alz-50 immunoreactivity in Alzheimer's disease (Doebler et al), 20

Schilder's disease. *See* Encephalitis periaxialis

Sclerosis

- systemic sclerosis: another disease with autonomic dysfunction (Gledhill and Dessein), LETTER, 421

Seizures

- seizures following myelography with iopamidol (Levey et al), 397
- sudden diencephalic events (Morris), LETTER, 208; reply (Bullard), LETTER, 208

Serotonin

- possible neurotransmitter basis of behavioral changes in Alzheimer's disease (Palmer et al), 616

Sex characteristics

- search for sex differences in the corpus callosum (Byne), LETTER, 313

Simian immunodeficiency viruses

- antibody to human and simian retrovirus, HTLV-I, HTLV-II, HIV, STLV-III, and SRV-I not increased in patients with multiple sclerosis (Madden et al), S171
- comparison of simian immunodeficiency virus and human immunodeficiency virus encephalitis in the immature host (Sharer et al), S108
- simian immunodeficiency virus-induced meningoencephalitis: natural history and retrospective study (Ringler et al), S101

- Sleep apnea syndrome**
 sleep apnea in olivopontocerebellar degeneration: treatment with trazodone (Salazar-Grueso et al), 399
 stroke associated with obstructive sleep apnea in a child with sickle cell anemia (Robertson et al), 614
- Smoking**
 effects of tobacco smoking on smooth pursuit eye movements (Sibony et al), 238
- Somatostatin**
 cortical somatostatin, neuropeptide Y, and NADPH diaphorase neurons: normal anatomy and alterations in Alzheimer's disease (Kowall and Beal), 105
 somatostatin and neuropeptide Y concentrations in pathologically graded cases of Huntington's disease (Beal et al), 562
- Spectroscopy. See Spectrum analysis**
- Spectrum analysis**
 prolonged deterioration of ischemic brain energy metabolism and acidosis associated with hyperglycemia: human cerebral infarction studied by serial ^{31}P NMR spectroscopy (Levine et al), 416
- Speech disorders**
 brain injury, handedness, and speech lateralization in a series of amobarbital studies (Woods et al), 510
 speech disorders in olivopontocerebellar atrophy correlate with positron emission tomography findings (Kluin et al), 547
- Spinal cord diseases**
 familial occurrence of HTLV-I-associated myelopathy (Mori et al), LETTER, 100
 HLA haplotype-linked high immune responsiveness against HTLV-I in HTLV-I-associated myelopathy: comparison with adult T-cell leukemia/lymphoma (Usuku et al), S143
 HTLV-I and chronic nervous diseases: present status and a look into the future (Koprowski and DeFreitas), S166
 immunological findings in neurological diseases associated with antibodies to HTLV-I: activated lymphocytes in tropical spastic paraparesis (Jacobson et al), S196
 neurotropic retroviruses of wild mice and macaques (Gardner), S201
 pathological and immunological observations on tropical spastic paraparesis in patients from Jamaica (Piccardo et al), S156
 review of central nervous system pathology in human immunodeficiency virus infection (Petito), S54
 seroprevalence of antibodies to HTLV-I in patients with chronic neurological disorders other than tropical spastic paraparesis (Mora et al), S192
- Spinal cord injuries**
 potential role for excitotoxins in the pathophysiology of spinal cord injury (Faden and Simon), 620
- Spinal diseases**
 alternating skew on lateral gaze (bilateral abducting hyper-tropia) (Moster et al), 190
 atlantoaxial subluxation in psoriatic arthropathy (Kaplan et al), 522
 symptomatic atlantoaxial dislocation in Down's syndrome (Braakhekke), LETTER, 421

 Alz-50 antibody recognizes Alzheimer-related neuronal changes (Hyman et al), 371
 effect of anterior temporal lobectomy on language function: a controlled study (Hermann and Wyler), 585
- Thalamic diseases**
 thalamic astasia: inability to stand after unilateral thalamic lesions (Masdeu and Gorelick), 596
- Thalamus, pathology**
 thalamic hemorrhages in Wernicke-Korsakoff syndrome demonstrated by computerized tomography (Roche et al), LETTER, 312
- Toluene**
 toluene abuse causes diffuse central nervous system white matter changes (Rosenberg et al), 611
- Tomography, emission computed**
 positron emission tomographic scan investigations of Huntington's disease: cerebral metabolic correlates of cognitive function (Berent et al), 541
 speech disorders in olivopontocerebellar atrophy correlate with positron emission tomography findings (Kluin et al), 547
- Tonsil**
 stroke associated with obstructive sleep apnea in a child with sickle cell anemia (Robertson et al), 614
- Tourette's syndrome**
 cocaine and Tourette's syndrome (Factor et al), LETTER, 423
- Trazodone**
 sleep apnea in olivopontocerebellar degeneration: treatment with trazodone (Salazar-Grueso et al), 399

Tremor

motor unit synchronization in physiologic, enhanced physiologic, and voluntary tremor in man (Logigian et al), 242

Trigeminal nerve

release of vasoactive peptides in the extracerebral circulation of humans and the cat during activation of the trigeminovascular system (Goadsby et al), 193

trigeminal evoked potentials following brief air puff: enhanced signal-to-noise ratio (Hashimoto), 332

Trihexosylceramides

nervous system involvement in Fabry's disease: clinicopathological and biochemical correlation (Kaye et al), 505

Tropical spastic paraparesis

antibody to human and simian retrovirus, HTLV-I, HTLV-II, HIV, STLV-III, and SRV-I not increased in patients with multiple sclerosis (Madden et al), S171

clinical research (Rowland), S215

epidemiology of tropical spastic paraparesis in Colombia

and associated HTLV-I infection (Arango et al), S161

HLA haplotype-linked high immune responsiveness against HTLV-I in HTLV-I-associated myelopathy: comparison with adult T-cell leukemia/lymphoma (Usuku et al), S143

HTLV-I, adult T-cell leukemia, and tropical spastic paraparesis (Sarin), S181

HTLV-I and chronic nervous diseases: present status and a look into the future (Koprowski and DeFreitas), S166

HTLV-I-associated leukemia: a model for chronic retroviral diseases (Murphy and Blattner), S174

HTLV-I-associated tropical spastic paraparesis in Martinique: a reappraisal (Vernant et al), S133

HTLV-I-like viral particles in spinal cord cells in Jamaican tropical spastic paraparesis (Liberski et al), S185

immunological findings in neurological diseases associated with antibodies to HTLV-I: activated lymphocytes in tropical spastic paraparesis (Jacobson et al), S196

intrathecal synthesis of IgG antibodies to HTLV-I supports an etiological role for HTLV-I in tropical spastic paraparesis (Ceroni et al), S188

neuroepidemiology of tropical spastic paraparesis (Román), S113

pathological and immunological observations on tropical spastic paraparesis in patients from Jamaica (Piccardo et al), S156

role of HTLV-I in tropical spastic paraparesis in Jamaica (Rodgers-Johnson et al), S121

spastic paraparesis and HTLV-I infection in Peru (Johnson et al), S151

tropical spastic paraparesis: clinical, immunological, and virological studies in two patients from Martinique (Dalakas et al), S136

tropical spastic paraparesis in Colombia (Zaninovic et al), S127

virological and immunological findings (Gibbs, Jr), S217

Tumor necrosis factor

tumor necrosis factor mediates myelin and oligodendrocyte damage in vitro (Selmaj and Raine), 339

Ubiquinone

deficiency of subunits of complex I and mitochondrial encephalomyopathy (Ichiki et al), 287

Uveomeningoencephalitis syndrome

uveomeningoencephalitis in a human immunodeficiency virus type 2-seropositive patient (Hormigo et al), 308

Vasculitis

clinical and neuropathological findings in systemic lupus erythematosus: the role of vasculitis, heart emboli, and thrombotic thrombocytopenic purpura (Devinsky et al), 380

Vasoactive intestinal peptide

AIDS and its dementia as a neuropeptide disorder: role of VIP receptor blockade by human immunodeficiency virus envelope (Pert et al), S71

Vestibuloocular reflex. *See* Reflex, vestibuloocular

Vincristine

successful chemotherapy for recurrent malignant oligodendroglioma (Cairncross and Macdonald), 360

treatment of chiasmatic/hypothalamic gliomas of childhood with chemotherapy: an update (Packer et al), 79

Visual tracking

two distinct deficits of visual tracking caused by unilateral lesions of cerebral cortex in humans (Thurston et al), 266

Warfarin

complications of long-term anticoagulation (Petty et al), 570

Wernicke's encephalopathy

thalamic hemorrhages in Wernicke-Korsakoff syndrome demonstrated by computerized tomography (Roche et al), LETTER, 312

Wit and humor

Dr (in) bereitschaft (Deecke), LETTER, 103
